```go
1  <ul class="gg-c-faqs">
2      {{ .Inner }}
3  </ul>
```

```go
1  <li class="gg-c-faqs__item">
2      <details class="gg-c-faqs__faq">
3          <summary class="gg-c-faqs__q">
4              <span class="gg-c-faqs__icon"></span>{{ .Get "title" }}
5          </summary>
6          <div class="gg-c-faqs__a">
7              {{ .Inner }}
8          </div>
9      </details>
10 </li>
```

FAQs with expandable details

Enter this shortcode into your .md file, replacing 'Hi' with what you want to be visible (i.e. your FAQ question), and replacing 'Content is here' with what you want your expandable details to be (i.e. Your FAQ answer). You can include as many faqs-li as you have FAQs. This will look the same as the [FAQs on giffgaff.design](https://www.giffgaff.design/components/for-web/faq/#faqs).

```go
{{< faqs-ul >}}
    {{< faqs-li title="Hi" content="Content is here" >}}
    {{< faqs-li title="Hi" content="Content is here" >}}
{{< /faqs-ul >}}
```
